

CEDARWOOD®
ALUMINUM SIDING

Quality-Crafted for Exceptional Performance Choosing a beautiful exterior for your home presents exciting possibilities. While you may already have some ideas in mind, superb craftsmanship, lasting beauty, easy upkeep and genuine value—along with the reputation of the manufacturer—are important considerations when comparing one product to the next.

Cedarwood professional-grade siding from Gentek is an excellent choice for your home. The exceptional style and strength of this heavy-duty exterior will meet your every expectation for enduring elegance and easy-care living.

Built Weather-Tough! Professional-grade, high-performance panels with Kynar 500 fluoropolymer coating beautifully withstand harsh winds and water, and other destructive weather. Unlike wood, compressed particle board or fiber cement, Cedarwood won't absorb moisture.

Enduring Beauty Cedarwood's naturally beautiful variegated coloring is fusion sealed to the aluminum. It won't chip, flake or peel like painted wood or other materials, and never needs to be painted or touched up. And, unlike fiber cement or compressed particle boards, Cedarwood professional-grade siding doesn't require unsightly seam caulking or joint moulds.

Added Dimension The extra-deep 1/2" butt height of Cedarwood aluminum adds greater dimension and style with dramatic shadow lines.

Crisp, Clean Lines While fiber cement and compressed particle boards typically require caulked joints, Cedarwood aluminum siding "seams" are crisp and clean.

Carefree Maintenance Unlike fiber cement and compressed particle boards that may require recaulking every two years and periodic repainting, or wood siding that typically needs repainting every five to seven years, Cedarwood aluminum demands not much more than an occasional rinse with a garden hose—perfect for today's lifestyle!

Peace of Mind Cedarwood aluminum siding is backed by a lifetime limited, transferable warranty with chalk and colour change protection*—further peace of mind you have chosen a superior product from a trusted manufacturer.

*See warranty for complete details.

CEDARWOOD®

ALUMINUM SIDING

Higher Expectations... Extraordinary Results Industry-leading technology and innovation. Craftsmanship unrivaled in quality and performance. Outstanding products. Impeccable service. The confidence and trust of every customer, every day.

For more than 40 years, Gentek Building Products has manufactured siding and accessories in beautiful styles and exquisite colours. With durable finishes that are easy to maintain. Backed by exceptional warranties that deliver lasting protection and excellent value. Giving you the expertise and personal touch—that make us truly a part of your home.

Premium Beauty Faithful to the distinctive beauty of genuine cedar, Cedarwood presents a natural-looking wood finish in a strong and durable aluminum construction. Cedarwood's intertwining warm hues combined with a handsome wood-grain texture will lend the perfect measure of elegance to your home.

Understated Elegance

The rich earth tones and authentic texture of Cedarwood® aluminum siding will readily summon the warmth and simplicity of gracious living. Cedarwood's convincing wood-like appearance is the result of our patented Colour Fusion coating process. Intertwining natural hues in non-repeating patterns create the beautiful variegated tonal colouring of genuine cedar. As distinctive as each tree in the forest, this unique finish will singularly define your well-appointed home.

Beautifully Protective

Cedarwood's exquisite appearance is as strong as it is beautiful. Beginning with a heavy-duty, professional-grade aluminum core, each panel is "weather-sealed" in Fluropon®—a resilient Kynar 500® coating specially formulated to resist staining, mildew and dirt. You can trust Cedarwood to stand up strong despite punishing weather. Frigid

temperatures, searing sun, and blasting winds are no match for its commanding strength. Cedarwood also is warranted against excessive chalking or colour change*—further assurance that your home will look great for years to come.

Be Inspired Something happens when beautiful colours, inviting texture and personal chemistry mix. A home develops character, a sense of style that reflects the conversations at the breakfast table, the together time at the end of the day or the spirited hours in between. From warm and classic to casual and contemporary—your home is all about you.

Easy to Maintain

Cedarwood aluminum siding requires minimal maintenance. You can forget about scraping and painting or struggling with ladders. Just a simple rinse with a garden hose will remove most airborne dust and dirt. In most cases, your siding will clean up quickly and easily.

Timeless Style

Choose from Double 5" Clapboard and 7" Vertical V-Groove profiles to heighten the character and style of your home. The earthy, multitone colouring and traditional

designs effortlessly convey warmth and charm.

Planning for the Future

Like many people, your home may be your most important investment. If you consider the time and money spent repainting year after year, you'll see why siding is a smart choice. Cedarwood's easy upkeep and attractive appearance can enhance the "curb appeal" of your home while improving its overall value. And in today's resale market, a low-maintenance exterior can be an important amenity.

Colour Palette

Aspen Gray

Chestnut Brown

Tawny Oak

Maple Tan

Coastal Redwood

Accentuate the architecture of your home with coordinating soffit, fascia and trim. Beautifully crafted exterior accessories will give your home a distinctive touch of personality and visual appeal.

A Lifetime of Protection

Your investment in Cedarwood aluminum siding is backed by a lifetime limited, transferable warranty with chalk and colour change protection. Not only is it a premier siding product, it also carries one of the strongest warranties in the industry.
