HIGHER EXPECTATIONS... EXTRAORDINARY RESULTS

Industry-leading technology and innovation. Craftsmanship unrivaled in quality and performance. Outstanding products. Impeccable service. The confidence and trust of every customer, every day.

For nearly 50 years, Gentek Building Products has manufactured siding and accessories in beautiful styles and exquisite colours. With durable finishes that are easy to maintain. Backed by warranties that deliver lasting protection and excellent value. Giving you the expertise and personal touch – that make us truly a part of your home.

Featuring richer, darker colours

fortified with ChromaTrue® fade-defying technology, Driftwood II vinyl siding carries a lifetime limited warranty against fading. See printed warranty for complete details. **ChromaTrue®**

Siding with Perfection

Perfection? It's never too much to ask. Our Colour Clear Through® system makes it easy to find the perfect colour match for your exterior design. This exclusive selection of customer-preferred colours ensures that all Gentek products – siding, soffit, fascia, trim and rainware – will beautifully match throughout our vinyl, aluminum and steel product lines.

EASY LIVING

Handsomely detailed and value-priced, Driftwood II vinyl siding brings classic style to the forefront. The natural cedargrain texture and low-gloss finish of this quality-crafted exterior will impart casual elegance to any home.

Enduring Style

Driftwood II's lasting beauty and simple upkeep make it a popular choice for today's homes. Durable and dent-resistant, each panel is solid vinyl colour through and through, so it won't chip, flake and blister like painted surfaces. And unlike wood, it won't rot and warp due to moisture.

Even better is the fact that vinyl siding never needs to be painted. There's no need for dangerous ladders or time-consuming maintenance. Just an occasional rinse with your garden hose will remove most airborne dust and dirt. Your home will keep its attractive appearance year after year with very little upkeep.

Added Strength

Built weather-tough! Driftwood II is fortified with a rolled nail hem for extra-strong wall attachment. In independent laboratory tests, Driftwood II withstood windloads up to 283 km/h (176 mph).*

Investing in Today and Tomorrow

Having a beautiful home can be a wonderful source of pleasure and pride. It can also be a wise investment. Driftwood II vinyl siding not only will create an enjoyable, worry-free exterior, but will heighten your home's curb appeal as well. And in today's resale market, a beautiful, low-maintenance finish can greatly enhance the value of your home.

Vinyl Siding – The No. 1 Choice

The secret is out! Vinyl siding is the No. 1 choice of exterior cladding across Canada and the United States. Creating the distinctive beauty of a freshly painted wood finish, vinyl siding is loved for its classic appearance, exceptional durability, easy upkeep and great value. It's also friendlier to the environment than many other siding products. As a sustainable material with a long lifespan, vinyl siding helps conserve wood often used in home construction. And because vinyl siding never needs to be painted, it eliminates the use of paint, stain, caulk and other maintenance-related products that can harm the earth.

Visit www.vinylsiding.org/professional/why-vinyl-siding-2/ to find out why vinyl siding is a great choice today and for future generations to come.
